4. To deactivate function touch  for 3 seconds.

If the function is deactivated, the filter icon  flashes three times.

5. CARE AND CLEANING

5.1 Notes on cleaning

Cleaning Agents

Do not use abrasive detergents and brushes.

Clean the surface of the appliance with a soft cloth with warm water and a mild detergent.

After cooking some parts of appliance can get hot. To avoid stains appliance must be cooled down and dried with clean cloth or paper towels.

Clean stains with a mild detergent.

Keep the hood clean

Clean the appliance and grease filters each month. Clean the interior and grease filters carefully from fat. Fat accumulation or other residue may cause fire.

Follow the instructions for cleaning the accessories when filter notification is on. Refer to Filter notification in daily use chapter.

Grease filters can be washed in a dishwasher.

The dishwasher must be set to a low temperature and a short cycle. The grease filter may discolour, it has no influence on the performance of the appliance.

Charcoal filter

The time of saturation of the charcoal filter varies depending on the type of cooking and the regularity of cleaning the grease filter. Charcoal filter is washable, clean or regenerate the filter after approximately every two months. Refer to leaflet included in the accessory.

5.2 Cleaning the grease filter

Filters are mounted with the use of clips and pins on the opposite side.

To clean the filter:

1. Pull the cover to open it.

i Be careful! To prevent accidental collapse, the cover has two hooks on the sides.

2. Press the handle of the mounting clip on the filter panel underneath the hood (1).

3. Slightly tilt the front of the filter downwards (2), then pull. Repeat the first two steps for all filters.
4. Clean the filters using a sponge with non abrasive detergents or in a dishwasher.

i The dishwasher must be set to a low temperature and a short cycle. The grease filter may discolour, it has no influence on the performance of the appliance.

5. To mount the filters back follow the first two steps in reverse order. Repeat the steps for all filters if applicable.

After closing the cover, the control panel turns white. The appliance is ready to use.

5.3 Cleaning the charcoal filter

To remove the filter:

1. Remove the grease filters from the appliance. Refer to "Cleaning the grease filter" in this chapter.
2. Remove the clips holding the filter bed (1), then the filter bed (2).

3. Wash the filter bed in hot water without using detergent or use a dishwasher.
- i** Set the dishwasher without using rinse aids or any other detergents. The dishwasher cannot be filled with dishes.
4. Leave the filter bed to dry or use an oven.

WARNING!

Risk of burns! Refer to safety chapter in oven user manual.

Set the oven for 10 minutes in the maximum temperature of 60°C.

5. To install the filter, perform the steps in reverse order. The filter has to be fully dried before installing it back into appliance.

Replace the filter bed every 2 years or when the cloth is damaged.

5.4 Replacing the lamp

This appliance is supplied with a LED lamp. This part can be replaced by a

technician only. In case of any malfunction refer to "Service" in the "Safety Instructions" chapter.

6. TROUBLESHOOTING

WARNING!
